- **Amrita Vidyalayam**   10th Std, Percentage: 93.8%

- **Abhishek Vidyalayam**   Junior College, Percentage: 86.17%

Projects

Amazon Web Page Clone   GitHub Link

- The project replicates the front page of the Amazon website, mimicking its design and layout.

- It is built using HTML, CSS, and JavaScript to provide an accurate visual representation.

- Features include a dynamic navigation bar, responsive product listings, and interactive UI elements.

- The project focuses on creating a seamless user experience, similar to the real Amazon homepage.

- Implemented hover effects, search functionality, and structured content display for an enhanced browsing experience.

CAR WEB   GitHub Link

- A car-related website built using HTML, CSS, and JavaScript.

- Features an interactive and visually appealing design for showcasing cars.

- The website provides detailed information about various car models, including specifications and images.

- Users can explore different categories of cars, filter options, and view high-quality visuals.

- The project aims to enhance user engagement by offering an intuitive browsing experience with smooth navigation.
