Profile

A highly motivated MERN Stack Developer with a solid understanding of building web applications. Eager to apply knowledge of React, Node.js, Express, and MongoDB in a professional setting and contribute to a collaborative team. A fast learner with a passion for coding and problem-solving.

Education

VIT Bhopal University , BTech in Computer Science and Engineering	2022 – 2026
• CGPA – 8.45	
Abhishek Vidyalayam , 12 th Std	2022
• Percentage – 86.17%	
Amrita Vidyalayam , 10 th Std	2020
• Percentage – 93.80%	

Projects

Expense-Tracker	GitHub Link
- Developed a full-stack MERN app for efficient expense tracking, management, and financial analysis. - Built a secure Node.js/Express.js RESTful API for user data and expense-related CRUD operations. - Implemented JWT authentication for secure user registration, login, and protecting all API routes. - Designed a dynamic, responsive single-page application (SPA) with React for a seamless user experience.	
VidTube	GitHub Link
- Developed a social media application with dynamic content display and embedded video playback. - Integrated the YouTube Data API v3 to fetch real-time video data, search results, and statistics. - Implemented a responsive UI using React for an optimal experience on all devices. - Authored clean, modular, and well-documented code to ensure scalability and maintainability.	
Fashion Retail Web Application	GitHub Link
- Replicates a functional e-commerce website clone of Myntra using React.js for the frontend. - Built a clean and responsive UI to ensure a seamless experience across devices. - Implemented Redux for efficient state management, enabling a dynamic cart system. - Utilized API integration for smooth communication between frontend and backend.	

Technologies

Languages: Java, SQL, JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Express.js, Redux, Tailwind CSS

Tools and Technologies: MongoDB, MySQL, Git, GitHub

Soft Skills: Teamwork, Problem-solving, Adaptability, Attention to Detail

Achievements and Extra Curricular Activities

- Engineered a prize-winning mathematical model prototype of a seismographic plate, earning recognition for innovative application.
- Completed an IBM GEN AI course, gaining practical knowledge about Artificial Intelligence.
- Core courses: Computer Organization and Architecture, Operating Systems, Computer Networks, Database Management Systems.
