Professional Summary

Computer Science graduate with hands-on experience developing full-stack web applications using React.js, Node.js, Express.js, MongoDB, and Redux. Skilled in creating dynamic user interfaces, secure RESTful APIs, and database integration, supported by core fundamentals in Java, SQL, and Data Structures & Algorithms.

Education

VIT Bhopal University, BTech in Computer Science and Engineering 2022 – 2026

- CGPA – 8.45

Abhishek Vidyalayam, 12th Std 2022

- Percentage – 86.17%

Amrita Vidyalayam, 10th Std 2020

- Percentage – 93.80%

Projects

Expense-Tracker [GitHub Link](#)

- Developed a full-stack expense management application using React.js, Node.js, Express.js, and MongoDB.
- Built RESTful APIs supporting CRUD operations for user and expense management.
- Implemented JWT-based authentication for secure registration, login, and protected API routes.
- Designed a responsive React single-page application for dynamic expense tracking and data management.

VidTube [GitHub Link](#)

- Developed a responsive video-sharing application using React.js with dynamic content rendering and embedded video playback.
- Integrated YouTube Data API v3 to retrieve real-time video data, search results, and statistics.
- Implemented reusable React components and responsive layouts for cross-device compatibility.
- Structured modular code to improve application maintainability and scalability.

Fashion Retail Web Application [GitHub Link](#)

- Developed an e-commerce web application inspired by Myntra using React.js.
- Implemented Redux-based state management for cart functionality and application data.
- Built a responsive interface optimized for desktop and mobile devices.
- Integrated APIs for communication between the frontend and backend.

Technologies

Languages: Java, JavaScript, SQL, HTML, CSS

Frameworks & Databases: React.js, Redux, Tailwind CSS, Node.js, Express.js, REST APIs, MongoDB, MySQL

Tools: Git, GitHub

Soft Skills: Teamwork, Problem-solving, Adaptability, Attention to Detail

Certifications

- **AWS:** AWS Solutions Architect- Associate Certification Program (ETHNUS).
- **IBM:** GEN AI Using IBM Watsonx.

Achievements and Extra Curricular Activities

- Engineered a prize-winning mathematical model prototype of a seismographic plate, earning recognition for innovative application.
- Core courses: Computer Organization and Architecture, & Algorithms, OOPS, DBMS, Operating Systems, Computer Networks.
